INTRO TO HOMEOPATHY

1. DEFINITION

Homeopathy is a system for the treatment of disease by minute doses of natural substances that in a healthy person would produce symptoms of disease.

2. FOUNDER

Homeopathy originated in the late 18th century with the German physician Samuel Hahnemann.

3. LAW OF SIMILARS

Like Cures Like
The same substance that in large doses produces the symptoms of an illness, in very minute doses cure it.

4. MINIMAL DOSE

A remedy is taken in an extremely dilute form, normally one part of the remedy to around **1,000,000,000** parts of water.

5. SINGLE REMEDY

No matter how many symptoms are experienced, only one remedy is taken, and that remedy is aimed at all those symptoms.

6. NATURAL

Homeopathic remedies are generally based on natural ingredients from plants, minerals and animals.

7. CLINICAL TRIALS

Homeopathic remedies have been shown to have no measurable effect beyond placebo even though millions of people testify to their effectiveness.

8. FDA

Homeopathic remedies are regulated by the U.S. Food and Drug Administration (FDA). However, the FDA does not evaluate the remedies for safety or effectiveness.

9. GROWTH

Homeopathy is the second most widely used system of medicine in the world. Its growth in popularity in the United States has exceeded 25% a year for the last decade.

10. WHOLE YOU

Homeopathy is holistic. It treats all the symptoms as one, which in practical terms means that it addresses the cause, not the symptoms.
